September 2, 2022

To Whom It Concerns,

I submit this letter and attached application for consideration to the City of Ketchikan Port and Harbors Advisory Board.

I have been a resident of Ketchikan for 60 years, an avid boater and harbor user for over 40 of those years. The port, harbors and launch ramps have changed a lot over the many years. I look forward to working collectively with staff, the board, the users and the public to ensure the continued success of these community assets.

Respectfully,

A handwritten signature in cursive script, appearing to read "Jay Rhodes".

Jay Rhodes

Daniel Askins

Marine Professional

+ 1 832-833-9089

Pearland, Tx USA

daskins01@gmail.com

 www.linkedin.com/in/dan-askins-8531173b/

Marine Professional with 20 years' experience in Marine Transportation including Upstream Oil and Gas Exploration, point to point shipping onboard Bulk Carriers, RoRo's, Tankers, Government Vessels, Passenger Vessels and Education.

Former member of the Technical Advisory Committee (TAC) for the Offshore Supply Vessel Dynamic Positioning Authority (OSVDPA) working to develop competencies for Dynamic Positioning Operators

Worked closely with the IADC (International Association of Drilling Contractors) regulatory team advising on regulatory changes from 2017 to 2019.

Management and department oversight experience in providing a safe work environment which stimulates the growth of individuals, while achieving successful operations.

PROFESSIONAL EXPERIENCE

Assistant Professor of Marine Transportation

October 2019 to Present

Texas A&M University at Galveston

Professor instructing students in Marine Cargo Operations and Ship Stability. As a part of my Marine Cargo Operations course, students were taught dry cargo operations, bulk cargo, container vessels, and stability as it pertains to cargo loadout. In our Stability class, students are instructed in principles of naval architecture and vessel stability. Students are prepared for the USCG Third Mate exam by rigorous testing and assessment.

Marine Technical Manager

Based in Houston TX. May 2017–October 2019

Currently serving as (Alternate) Designated Person Ashore (DPA) and HSE Steering Committee member

Advise upper management and develop policies and procedures that ensure safe, efficient operations. Work closely to insure company adheres to the Safety Management System by writing policies, standards and guidelines for safe operation. Responsible for providing support and expertise to management in achieving optimal operation and client satisfaction for Pacific Drilling's seven drill-ships. Insure worldwide compliance with STCW, IMO, Flag and Class requirements.
