	Community Engagement Activities	Participant Outreach Activities
JANUARY	The Executive Director spent roughly 12 hours this month at various meetings or discussing with the public the state of Homelessness or the operations of the PATH specifically. This includes City Council and Borough Assembly meetings, Grant committee meetings, phone calls and emails with the public, discussions in person with the public, agency meetings with various funders, partners and other groups working in teh field of housing and homelessness. We also received donations of various household goods, clothing and other inkind items with an approximate value of \$360.00 for the month.	Staff engage clients who are not currently staying at the PATH when approached on the street, often in the front area of the building. We offer advice on services for them to reach out to, or invite them in if that fits with their needs and goals. We also make referrals to clients who are staying with us to outside agencies for various reasons including housing, health services, legal aid, job search, food and other public assistance programs. This often happens organically during conversations with clients. We (collectively as a staff of 3) spend and average of 4-6 hours per week with referrals to outside agencies or in informing potential clients of our services when appropriate.
